Full Day Skate Camp

Mobile programs visiting different skateparks!

Full Day Skate Camp help hone your skills, make new friends, and explore amazing skateparks around the Front Range!

Skateboarding means something different to each of us.

For some, it's all about learning new tricks, for others, it's more about making friends, but for all of us, it's about exploring our creativity while collecting some sweet memories and battle scars!

You Should Look Like This!

(Maybe a little less green)

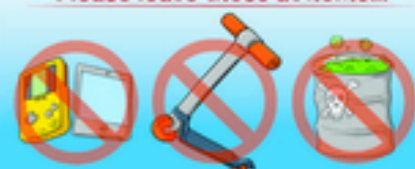

If you're feeling nervous:

No worries! It was everyone's first day once. We do introductions so everyone can get to know each other and a morning round-up to discuss our day.

If we travel to a skatepark that is new to you, a counselor can guide a tour around the park to point out any features to look out for/look forward to.

Staff and Junior Counselors are on hand to help! Trick tips, a skate companion, or even just a fart joke, whatever you need, we got you!

Please leave these at home...

Skatepark Tips

How To Maximize your Skatepark Experience.

Be Tuned In!

Check ALL directions before each run. The best starting points are often found along the edge of the park.

Take Breaks Outside of the Skatepark

Benches in the skate-space are meant to be skated. Keep food and drinks away from the park.

Skate With a Buddy

Help keep each other safe, keep each other stoked!

Please DON'T Be This Guy!

Many parks are million dollar facilities that people travel to skate! They are not playgrounds.

Please respect the park and the people in it.

Clean up your trash.

Don't disturb the skatepark ecosystem!
